We keep visitor logs and records manually or digitally, where we maintain complete details of the visitors to include the date, time, stamp and purpose of their visit.

## CRIME PREVENTION & SAFETY

Essentially, people who know they are being observed tend to behave better, so the presence of a security officer can reduce the likelihood of crime or attempted crimes in Buildings Malls and Society.

Being experts in the field, our trained team is able to prevent crimes and ensure safety at the properties. There are times when adverse situations happen and security guards act quickly to prevent loss or damage to life and property. Since we are the immediate and direct point of contacts with the owners, visitors and customers, we are the first to come in contact with the situations and implement remedial and privative actions via trained response.

## OUR HIGH-TECH SECURITY SERVICES PORTFOLIO

### SECURITY CAMERA

Every business establishment, whether big or small, would have a security camera installed. This helps the personnel to keep an eye on everyone in the vicinity and therefore, thefts and other kinds of misdeeds stay at bay. Security cameras that we provide are reliable and have a wider range of coverage. What's more, with warranties and regular services, we assure you that you would never want to deal with any other company than ours.

### SECURITY ALARMS

During the day-time, you could keep a tab on your shop/business premises. What about night time and holidays? The solution for it is our well-designed business security alarms turkey solution that alerts you or the people around if something is amiss. Now, this is something that every business should have at their business premise. This means that you can remotely safeguard your business with our complete well-designed system.

### SECURITY SYSTEMS

Every commercial business needs a different type of security system. Trust us to provide you security systems that are aligned to your business type. Our commercial security system includes video cameras with 24/7 surveillance and alarms that launch at the presence of an unknown entity.

The commercial alarm system that we market and deploy can supervise doors, windows, and lockers. Our alarm systems come in use for different purposes. We have alarms that alert you in case of fire, burglary and even unauthorized access. We also deal with access control alarms. It shows you who accesses your files or lockers and at what time. The best feature of these alarm systems are that you could control it from anywhere that you like with the help of a remote control.

The training is provided as per the needs of the industry in the commercial sector. The commercial segment includes Malls, Commercial Complexes, BPOs, Corporate, Retail Outlets and Educational Institutions etc. We induct tall intelligent and physically fit persons as security guards after testing their abilities in their domain. Depending upon the skills, training and qualifications.

So, what are you waiting for? Give us a call and we will come to you for a survey of your business and premises and suggest the best type of security system for you.
